

STEELHAUS

STEEL FRAME INSTALLER/CARPENTER

Our Company:

SteelHaus is a New Zealand owned and operated steel framing company who designs, engineers and fabricates high quality steel components for new home builders, commercial building developments and apartment blocks.

We work to the highest New Zealand building standards with some of the most skilled individuals in the industry. We supply our own durable and top-quality light gauge steel frame and truss products and offer the whole package from drawing to manufacturing through to installation.

The role:

- Installing housing steel frames
- Carpentry duties
- Quality checks and install checks
- Prepping and cleaning the construction areas
- Working at heights
- Adhering to Health and Safety standards
- Various other general building/carpentry duties

Our ideal candidate will have the following skills/experience:

- At least 2-year's carpentry building experience
- At least 1-year steel framing experience
- Building, Construction and Carpentry knowledge
- Previous experience in installing steel and fixtures
- A great work ethic, be punctual and reliable
- Good physical fitness
- Keen to work in a hands-on environment
- Full driver's license
- Able to pass a drug test

Please send your CV and Cover Letter through to

careers@steelhaus.co.nz

or call Elina on 09 277 2700 ext. 877 if you have any questions.

Unfortunately, we don't always have the time to respond to all applicants. Only candidates who match the required level of skills and experience will be contacted.
