

## NetSuite Software Developer/Programmer

**Newly created role! Smart, articulate people who have a real passion for technology should apply.**

**We are business savvy innovators, creators and out of the box thinkers.**

**A fantastic culture with a great opportunity to support 10 independent businesses within our group.**

- Salary, an insurance package including medical, life and income protection
- Manukau Location – Free Parking – Lots of scope
- Open, collaborative and FUN!

### **About the company:**

**KS Holdings** is an exciting and growing organisation with 10 individual business units who belong to our group in industries such as roofing, construction and manufacturing.

We are expanding quickly and taking on a lot of internal development. As such we are in need of an experienced NetSuite Software Developer who is switched on, a team player, dedicated and enthusiastic to join our busy IT team in our Manukau head office.

### **About the role:**

You will play an integral role in ensuring the development and improvement of our ERP (NetSuite) software for our group.

- The position will require you to develop, design and maintain ERP (NetSuite) software under version control and continuous integration
- Work with the project team and designers to ensure the usability of the product
- Assist architectural strategy
- Plan, scope, research and implement improvements
- Problem solving using programming logic
- Help desk/trouble shooting
- Training

### **To be considered for this role you must have the following:**

- NetSuite and Web (Java) programming experience essential
- Understanding of NetSuite software products (customizing), & implementation of best practices
- Solid experience with suitescript, including bundles, plugins, and associated script deployment & execution methods
- 3+ years' experience in system development, business analysis and report creation exposure
- Excellent verbal and written communication skills
- A good knowledge and experience with management information systems (including sales, purchasing, stock and accounting)
- Good knowledge of the MS suite including intermediate to advanced excel skills
- Process design experience
- Critical thinking and problem-solving ability

We are looking for someone who is passionate about business, can work as a team, strive for success and enjoy the challenge along the way!

**Disclaimer:** Unfortunately, we don't always have the time to respond to all applicants. Only candidates who match the required level of skills and experience will be contacted.
